

BEST WISHES.

12/22/44.
Corpus Christi, Texas.

Dear Pogue: I just recently read your letter to Jackie that published in the STimer. It was most interesting to hear that you are right when things need to be done. You - at least get time to write which is better than the Navy has done for me -

As you may know, I extended USNR.

two years ago this past week.

Have enjoyed my work in Aviation Training very much. I am in Florida 8 months - and have been here in Texas for 10 months.

Spent 10 days in Murray and

Thanksgiving having a wonderful

time - MSIC is going on as usual

but largely "fermenting" (you would like it.)

I am most interested in your work

with the Army. You obviously move along

rapidly. I have seen the Southern

states frequently but have not been

able to do. May go to the H. Island this

next year. There is nothing in good fortune and speed

return.

With the best of
good wishes.

Mayrell Johnson
