

MURRAY STATE COLLEGE

MURRAY, KENTUCKY

November 5, 1957

Dear Forrest,

Thank you again for the superb job you did at our convention. The attendance at your address is symbolic of the respect the students have for you. The International Relations Club appreciates your working us into your plans, despite the difficulties involved (when the students learned how little sleep you had gotten Friday night they were astounded at how you could sound so fresh on Saturday morning).

All in all everyone feels that the convention was a great success despite the small attendance from other schools. We face that problem even when we meet upstate; and personally I was anxious to have the meeting at Murray in order to expose our people to such an atmosphere. By the way I think the scholarly atmosphere was one of your most worthwhile contributions to Murray. Students are always telling me how you interested them in books.

Give my regards to your wife, and I hope that we are able to see each other at Christmas. I plan to attend the Am. Historical meet in New York. Will you be there?

Best wishes,

Frank Steely
