Dear Pogue:

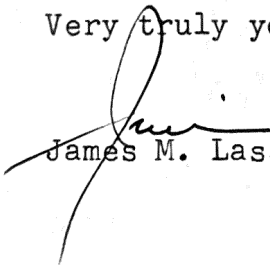

For some few months now I have been intending to at least drop you a note or to find some other way to formally thank you for the very considerable time and effort which you have devoted to the fund drive for the memorial of Uncle Rainey Wells.

The success of the drive attests better than anything else to the energy and enthusiasm which you have devoted to it. Certainly every true friend of Murray State College is indebted to you for your efforts. Somehow I feel that no one will be able to see the memorial without remembering the part which you and many others - and particularly you - contributed to make it possible.

As an alumnus of Murray State, and as one who was fortunate enough to enjoy a family contact with Dr. Wells, I simply wanted to thank you.

With kindest and best personal regards to you and Christine, I remain

Very truly yours,

James M. Lassiter
